

Wellness Strategy

Once the effective cancer cure already exists
- that means:
people are dying NOT FROM CANCER any more!
People are dying now:
- from lack of INFORMATION
- and from DESTRUCTIVE AND FATAL ADVICE

The Universality

The dominant medicine started its development from the beginning of the last century and has been developed not for health care but to serve the interests of the pharmaco-business. That was the main goal of its founders – Carnegie, Rockefeller and others, who developed the most powerful in the world pharmaco-industry, known under the general name Big Pharma.

So the dominant medicine flew against conventional - holistic – medicine, which stems from Hippocrates, the father of medicine and for 24 centuries now has successfully cared for people's health.

The dominant medicine today opposes even against the very holistic view of health and the human organism.

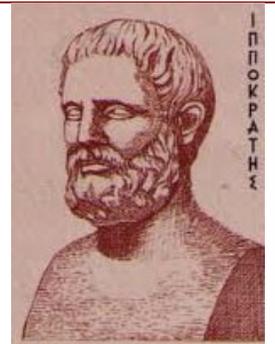

It does not consider it as a whole, but as a series of parts.
And in this situation is trying to cure it "to order" and "by the piece":
- Pill for head = 100 dollars
- Pill for legs = 200 dollars

And the sick clients of the medico-business buy and buy pill after pill in vain and naive hope - one day to hear:

"Here, at this point we have cured your head. Now let's get on with your legs"

Misled by the glossy and garish advertising of the pharmaco-business they can not

"One must treat the body as a whole, rather than a series of parts."
- **Hippocrates**
(464-370 B.C. - Father of Medicine)

understand that the head alone can not be permanently cured, if the organism as a whole is not cured. They can not understand that the head cannot be considered isolated - because

EVERYTHING in the organism is in mutual relation and dependence!

In its color blindness, the dominant medicine does not see that:

- **Any pill affects the whole body**, not just a single organ to which it is ostensibly intended

- **Each pill affects every organ and even - every cell of the body**

- Another issue is that **the eye of the doctor (armed or unarmed) might not see this effect!**

In cancer - all types of malignant cancer – the very approach of the medical business is vicious: when treating the body not as a whole (indivisible) but as a series of parts - it is not possible to cure cancer (any type) even theoretically - because

It is a disease of the whole body and not only of a part(s) of it

Exactly the same says Dr. Peter Glidden: Cancer is not a reductionistic phenomenon - cancer is a holistic phenomenon. And when you try to bring a reductionistic methodology like drugs and surgery to bear on a holistic phenomenon, you will completely miss the boat - each and every time, you cannot do it!

In order to achieve a cure here

one must apply the approach of the classical medicine = the holistic one = 24 centuries of history from Hippocrates up to the present day.

I will give an example - that:

a) Clearly and simply illustrates and makes it easy to understand what I have said here. and

b) Displays how tragic the consequences are

of the lack of understanding = of the scientific color blindness

suffered by some medics (I can not call them "doctors"!) - who are unable to approach flexibly, yet should, at least in some cases (such as cancer in all its varieties) apply the holistic approach = the one of the classical medicine.

The therapy of Shevchenko is a holistic method. This means:

- It treats the body as a whole = NOT a single cell of the body can avoid its therapeutic effect.

By the therapy of Shevchenko these medics could heal the patient who came to them **and trusted them!** However, they decided to approach fanatically with methods that are only applicable to a reductionistic (local) phenomenon, but are absolutely inapplicable = unsuitable for a holistic phenomenon as cancer (malignant) in all its varieties.

Here are the tragic consequences of this scientific blindness and fanaticism:

On Monday, 2012 January 16 10:38:35 EET

- I received a letter (i-120108-002) I've removed names and personal data, everything else is as in the original:

"I read the forum ZDRAVNITSA and if possible send me the book of Shevchenko. My husband has a primary carcinoma of the kidney, and then has been removed, of the ureter, urinary bladder. Metastases occurred at the bones, and then another operation with three vertebrae removed and titanium implants. The scanner shows doubts about meta in the liver and the lung.
Please help!

Thank you in advance!"

Here is an example (these are thousands a day) when some medics really can not understand this simple truth:

- They are trying means which are only applicable to a local phenomenon, but they attempt to put them into a holistic phenomenon.

Is just a single part of the body sick- NO!

The whole body is sick!

And what do they do to cure this whole body?

- They begin to **cut parts of it:**

1. A carcinoma in the kidney appears? – They remove the kidney!
(they discard the kidney there in the trash - as something unnecessary - instead of healing it, it's already there in the garbage - it can not go back!)

2. Another one appears - on the ureter, then - on the urinary bladder.

It is normal that they should appear - because the whole body is sick!

Not only the kidney or the bladder is sick - NO!

The whole body is sick! This means: the phenomenon is holistic, it's not a local one - such is the genetic predisposition **of the whole body, not just of a part of it.**

So **what do they do to "cure" this whole body?**

Answer: **They cut off another PART of the WHOLE body!**

(they dump it there in the trash - as something unnecessary - instead of curing it)

3. Other metastases appear - at the bones.

It is normal that they should appear - because the whole body is sick and not just part(s) of it!

And what do these "healers" do to **"cure" this whole sick body?**

Answer: **They cut off another part of the whole sick body!** - And throw it away in the trash – here it is, there in the garbage, as useless. And what is this part? These are three vertebrae of the spine.

What will the man do without three vertebrae?

"Hey, don't worry - they say - now we're gonna replace them here with titanium ones" ...

Do you understand what kind of irresponsibility and fanaticism and blindness am I talking about?

And what a horror for the sick one! - Imagine for a moment what happened to this poor man, after they began to cut off his organs one after another and throw them in to the trash as unnecessary -

- They cut off and throw out, cut off and throw out - and imagine what went on in the mind of his poor wife? ...

They started - and they cut off ... Removing, cutting off ... Go ahead! It is not of my body, so it's allowed - yeah, cut it off! One after another - remove! ...

Is there anything to stop such "healers" - to not behave like pirates = to lay off the knives and stop this cutting?

Yes, there is - **God or the death** - of the patient or their own death!

It's good they at least didn't touch the head of this guy - at least they didn't cut it to try their guillotine too - before they leave him at peace...

What happened next? Have they cured the disease by all these cuts? Have they cured the disease of which **the whole body suffers** - by cutting **part after part of this body** and throwing these parts in to the trash as "unnecessary" rather than just **cure the whole body?**

Not at all! – Here is the result: "The scanner shows doubts about meta in the liver and the lung."

In other words - after their "adept interference" and having "left their fingers on him", they left his wife in a position to cry in horror:

"Please help!"

Is it possible for a registered medical practitioner - an MD - to be that ignorant to not be able to understand such a simple thing?

Of **the WHOLE** and of **the parts!**

I can not believe it! These people simply – not only have no conscience – more over they have no shame, no mind, no heart ...

- They have operated them on their own

Is it necessary to cite more examples? Letters?

These are thousands! A month!

They are described by conscientious and intelligent American Doctors:

- Death By Doctor <http://www.youtube.com/watch?v=8JF7TcPsmvI>

- Number one killer of Americans - Dead Doctors Don't Lie
<http://www.youtube.com/watch?v=qwIHZDNBAi4&feature=related>

Here is this report of the American Physicians in document form:
www.cancercureclinic.info/0002_Wellness-Strategy/death_by_medicine_en.pdf

But I think this single case alone (described above) illustrates clearly enough and lets all people **understand WHY** the methods of the dominant medicine - are totally unworkable for the disease of cancer (in all its varieties) - Shevchenko perfectly rightly calls them "inquisitorial methods"!

What are the reasons these physicians should behave in such a manner with a living human being?

Everyone is entitled to his own opinion and has the right to advance any reason he wishes, but in my opinion they are the following:

1. The first (and most difficult to repair) reason is - the above described scientific color blindness and scientific fanaticism = lack of understanding that one must approach both precisely and flexibly in each and every case of cancer. It means: Yes, the reductionistic methods of the dominant medicine can also be applied - **but not in all cases!**

1-a) In a case of a benign tumor the operating method can also be applied, because the benign tumor is a reductionistic (local) phenomenon - but **only on the condition that this organism proven has no malignancy!**

BUT!

1-b) In a case of malignant one - there is always present a holistic phenomenon and then

none of the reductionistic methods of the dominant Medicine can be applied - even theoretically.

Herein for the healing a holistic method is needed!

Why?

Because in this case **the whole body is sick – not just a part of it!**

That's why I pointed out above: **The Shevchenko Therapy is a holistic method.**

This means: It treats the body as a whole = not even one cell of the body can escape the therapeutic impact of this Method.

2. The second reason for such a criminal behavior of these medics towards the patient **who comes to them with trust** is because:

- **they themselves KNOW that their reductionistic methods are not applicable to any malignant cancer and a healing by them is impossible!**

However - they apply these methods and, as a result - the sufferer dies.
Why do they do it?

Because **they do not want to publicly acknowledge their impotence (powerlessness)!**

It is more prestigious for them that:

- **The patient should die, but they would keep their reputation** - to show that they "are doing something"...

And then, after the patient dies - to justify themselves:

- "Well, anyway, we are not gods! We did what we could! "

This is the standard response after their intervention - which is not only unnecessary but - even **lethal to the patient**.

3. The third reason.

Anybody else who has not figured it out – which one is it?

Answer:

- **MONEY!** -

The dominant today medicine is intended to serve the needs of the pharmaceutical business

Only the Classical Medicine (the Holistic one) - unlike the dominant - is intended to take care of people's health.

All these cuts and titanium vertebrae cost MONEY!

It is the same deal with the sales of pills.

4. The fourth reason: unscrupulousness.

The holistic approach to the organism
as an integrated and indivisible whole

serves the health -

however goes contrary to the interests of pharmaco-business = it reduces the sales of pills, the sales of services and more sales.

That's why a wise doctor says:

"The drug industry is the most successful global industry in the world!

The only thing they DO NOT WANT you to do, is – to get better. Because if you get better - their market is gone! "

For the same reason – each time someone mentions a Universal Cure – the dominant medicine starts screaming hysterically: "Burn this witch!"

In its color blindness, the dominant medicine can not see a common point to all diseases! It denies, and at that fanatically denies that there can be such a common point that refers to any disease without exception and hence allows the existence of a Universal Cure - against any disease.

Do really these propagators not see the common point? I doubt it very much! I think they rather see it (it is obvious) but simply -
they intentionally blind the humanity = **intentionally wash** people's minds to **not allow people to see the common point** - so that way **people to be kept under dependence to the pharmaceutical business.**
(and with such massive propaganda they indeed managed to blind them!)

Being unable to see such a common point is great blindness indeed!
This is blindness that strikes!

How many times will I have to be burned according to their medico-arithmetic I do not know, but - in my Wellness Strategy in the section "The Common Points" I am giving NOT ONE but a whole FOUR (4) such common points (or centers). Let me start with the most important and central of them to make it more clear what is the most important specifically for curing cancer - ANY type of cancer:

The most important, the central common point
in which concentrate ALL without exception diseases that
attack the human organism, is
THE ORGANISM ITSELF!

I do not know, it baffles me, I have no idea - WHY this so simple thing turns out so difficult to understand?...

The organism - that FIRST UNIVERSAL CENTER, the first and central COMMON POINT

a) for ALL without exception body parts and

b) for ALL without exception diseases that attack both the organism as a whole and its parts

- THE HUMAN ORGANISM -

is the most effective, most successful, most **universal fighter** **against ALL these diseases** - without exception!

- With the power of this fighter can not compare even the most powerful scientists and wise Doctors in the history of mankind.

- Not only that, but even more: If these most powerful and wise Doctors do not unite their efforts with this most powerful fighter against any disease - **the organism** – without its **active** support, they will be left to their own efforts and wisdom and will remain **powerless against any**, even the simplest disease.

In all cases, the organism must "agree" with their treatment - and only under this condition, they will be able to cure it!

So powerful is the most effective, most successful, universal fighter against all diseases without exception - the human organism!

And more correctly would be to say: **The most powerful and invoking admiration is The Creator Himself of this amazing organism - the Lord God!**

Therefore, the wisest thing we can do is:

1. First of all - to glorify the Creator Himself - Lord God! And to marvel His creation - as amazing, indescribable, incomprehensible in its perfection and inimitable in its way and efficiency in coping with the diseases that attack it: Universal fighter - against every disease!

2. The second wise thing we could do in our quest to conquer any disease without exception is:

- **to take into account** that ability of the organism! To take into account its **universality!**
- **to comply with it** – orienting ourselves toward methods that work in subordination to it! Methods that are in full harmony with this universal ability of the organism - if not to deal definitively with any disease, at least - to open boldly and fearlessly war against EVERY disease without exception! Let us help the organism in this war! Let us concentrate our attention and our brainpower primarily on those methods that assist the organism in this war!

If we do so:

- our success will be maximal

- and will be achieved with minimal resources and effort on our part

This will be minimal resources and effort, but - most wisely directed!

The prophylaxis with the therapeutic tea Veloci Tea is a proven potent preventive as well as the **Prophylactic** form of the Therapy of Shevchenko. And what is more, when the two are combined – they do not interfere with each other's effect, but exactly the opposite, they work in synergy to achieve an even more powerful effect in the prevention of cancer and of many other severe diseases.

Also as **Therapeutic agents**: In Wellness Strategy these two **Therapies** are included not by accident. The Therapy with Velosi Tea works in stunning synergy with the Therapy of Shevchenko and increases its effectiveness by times, not to say that, in particularly difficult cases of cancer in which the Therapy of Shevchenko no longer manages alone - **the two Therapies together** do it. The latter is proven also from my personal experience.

THE SECOND UNIVERSAL CENTER

- this is the AMBIENT

1. Man in his entirety.

In the preceding chapters was explained in detail that -
to have the right healthy approach to man
we should treat him as

one complete WHOLE, and not as a series of parts -
and that this approach is called
HOLISTIC approach.

We also clarified that we have to approach
not only in a limited holistic way,
in which we perceive man only as a body, but we must treat him **comprehensively** – as
a trinity of
spirit = person
soul = bio-reality (set of instincts, reflexes, characteristic also for the animals)
and body = matter (and energy - in its radiation, field and any other form)

We clarified that only when we look at man in his fullness as ONE complete whole (and
not just as an organism or body), we can obtain an accurate picture of his state of
health, whereat in the picture are included the addictions passions of man (which belong
to the **spirit = person**) and very often cause various damages to the organism that
otherwise would not be revealed - and only in such a complete overview (truly
completely holistic) we can determine
TRUE AND ACCURATE DIAGNOSIS
- which is the first requirement for the healing of ANY disease.

2. The Ambient.

Man thus seen in his entirety provides a complete picture
BUT!

What is lacking for its final completeness and what remains here is to note that:

- Even in such fullness, **man should not be viewed in isolation!** He can not be isolated
anyway! Wherever he is, man is always in **the ambient**
- And the ambient always exerts a powerful impact on his state of health. That is why,
this impact should never be ignored and man should always be considered **IN UNITY
with the ambient** – in which he always is anyway! Only then will our picture of his state
of health be complete and correct.

Therefore, **The Ambient** is THE SECOND UNIVERSAL CENTER, which concentrates
all without exception diseases that attack the organism. This is the second common
point in which they all focus.

Today we, humans, have changed the ambient to enormous extents.

For example the toxins we have filled the ambient through and through with, cause
cancer and many other severe diseases

1. directly - by causing mutations in the genes and producing cancer cells
2. indirectly - by disrupting
 - a) the internal balance of the hormones
 - b) the cellular processes
 - c) the healthy expression of the genes by switching off health promoting genes and
switching on disease promoting genes (Epigenetics)

Accordingly, the detoxification of the organism achieved by Velosi Tea and by the

Therapy of Shevchenko is a key point in turning the organism from generator of cancer to normal.

THE THIRD UNIVERSAL CENTER

– this is THE DIGESTIVE SYSTEM – through which the organism comes in contact with the ambient.

1. Some people live by the belief that supposedly the Holy Bible says that God created man from mud, from clay. One such idea that God put a ball of clay on the potter's wheel and made a man is very stupid, profane, illiterate - and has nothing to do with the Holy Bible. Nowhere in the Bible is said such nonsense!

What we actually read in the Holy Bible, in Genesis, chapter 2 verse 7, is: "And the Lord God formed man of the **dust of the ground.**"

What is **dust of the ground**?

Let this be perceived correctly:

- The dust of the ground, with all its nutrients, humus, etc is absorbed by plants and thus it forms their material body.
- Herbivore animals absorb it from the plants and it forms their material body
- Man takes in plant and animal food and so the dust of the ground from the ambient enters his organism and builds it - becomes part of it.

And if someone wants to call it not "dust of the ground" but "clay" - no problem! – so long as they have the correct idea of

WHAT their own body consists of

and do not talk nonsense about - what was and what was not written in the Holy Bible - because everything there is written correctly, although not written in modern language and not today, but is written in the language spoken by those people through whom wrote God Himself. It is sufficient for this purpose for a person to exert what God has bestowed on him for thinking - and it works.

This makes it clear how important the digestive system is because it is, that establishes the contact of man with the ambient and through which **the dust of the ground**

- being **part of the ambient**
- passes and becomes **part of the human organism**.

The intestines through which mainly is done the absorption of the dust of the ground (and not primarily through the stomach!), are not just some "pipes" through which the dust of the ground passes and what is unnecessary is discarded, but they are a whole "factory" that utilizes the dust of the ground, marks the beginning of its processing and its transformation

- from **part of the ambient**
- into **part of the human organism**.

- Therefore, the **optimization of the work** of the intestines (and of the entire digestive system) is so crucial to human health - and is a preventive activity that protects the organism and constitutes another central and common point for almost all diseases!
- That is why Hippocrates – the father of Medicine - says: "Death begins in the colon."
*(It's been said 24 centuries ago -
and no development of science is able to revoke its truthfulness - as no development of science is able to change the composition of man)*

THE FOURTH UNIVERSAL CENTER

The fourth and central common point

a) for all without exception, body parts and

b) for all without exception diseases that attack the body as a whole and its parts, this is

THE OXYGEN

Precisely the oxygen and the means of its delivery in to every cell in the body call deviations in two opposite directions:

- a) **deficiency** of oxygen,
- b) or **excess** of oxygen.

a) For many decades, the science has revealed that the basis for the emergence of almost all the ills stands a chronic **shortage of oxygen** in different tissues.

б) And in recent years the scientific view is focused on the fact that **the excess of oxygen**

the excess activity of free radicals in the body cells leads to accelerated violent reactions, wherein particularly important elements of the cells of the organism get damaged. We intentionally avoid the details! The essence - the result is:

- a preterm aging of the body as a whole
- and the occurrence in it of a huge variety of different diseases.

The therapeutic Methodology of Shevchenko successfully solves this

- Fourth central issue -
reveals which is the

FOURTH UNIVERSAL CENTER

fourth and central common point

a) for all without exception, body parts and

b) for all without exception diseases that attack the body as a whole and its parts

We will not go into details, because our topic is associated with this, but it's not the same. Therefore

Details - how? HOW the Therapeutic Methodology of Shevchenko successfully solves

this second central question - can be found out inside the very Therapeutic Methodology, Chapter „Extracting the Pernicious Root.”

Let's better focus on something that is not said in the Therapeutic Methodology of Shevchenko, let's say it here:

- What is this very fact that the healing mixture of Shevchenko

optimizes the delivery of oxygen

to every cell, bringing it to optimum standards of life of the cell (respectively - the body as a whole)

- **neither shortage nor excess but - norm.**

What does this mean?

It means that it **optimizes THE UNITY:**

a) of **the organism** with **the ambient** -

BRIDGE: **body + ambient**

b) of **each cell** in the body with **the ambient**

c) and if - of **every cell** of the body with **the ambient**, therefore – also of **every living organism** with **the ambient** in which we live:

starting from the amoeba and ending with man.

- That's WHY this is: The Fourth Central Question

- That's WHY this is: The Fourth Common Point

- That's WHY this is: The Fourth UNIVERSAL Center

ARE THESE THE ONLY COMMON POINTS in which focus all diseases that attack the organism?

I listed here four common points. These are not the only ones - there are others too. But in this study I only mention 4. Only the first one is first by the degree of importance! The sequence in which the other three are numerated as "second", "third" etc - is not at all required. I put them in this sequence not in order of importance but just to let the explanatory text go. If someone likes another sequence – they are welcome. Only the first one - the human organism - must remain as first by the degree of importance.

These are just four key points that apply to all without exception diseases that attack the organism - and on their basis can be achieved many universal medications and not only the Therapy of Shevchenko!

These four central important points (that I mentioned and many more I have not) are in front of the eyes of every person every day. However, **the dominant medicine pays no attention to any of them**. It "does not see them" – like if they are non-existent!

Why?

Because they can **not be sold!**

And the dominant medicine

- is not intended to take care of the human health!
- It is intended to serve the prosperity of the pharmaco-business!

Moreover – the dominant medicine, precisely because it is intended to serve not the human health but the prosperity of the pharmaco-business - wants also the people to stop seeing these central points too -

even though they are **in front of their eyes every day!**

Why does it want so?

Because - **if a person gets better**, he ceases to be a client - and then **their market is gone!**

The interest of the pharmaco-business is:

- **everyone on the planet**

a) to be permanently sick - but

b) to be able to work.

That is why this massive propaganda is needed - that supposedly "universal medicines do not exist"

- So that **people stop seeing even what is in front of their eyes every day**

and so remain **under constant dependence on the pharmaco-business**

and the **sales of pills increase and grow every day!**

Here's why -

a question of manifestation of intelligence on the part of each person is:

a) To understand the trap and the dependence, to which they are being pushed continuously by the propaganda of the pharmaco-business - and

b) To understand that the dominant medicine will not take care of them and of their children - but will take care of its own interests.

Therefore:

To understand that the issue of their health and the health of their children is a concern that lies on their own back – they have the responsibility and no one else - therefore:

- **to show initiative**

- **to themselves take care of their own health and of the health of their loved ones.**

They may search and find many universal medicines. But the object of this research of mine is:

The Therapeutic Methodology of Shevchenko - and its Universality.

The Therapeutic Methodology of Shevchenko is UNIVERSAL!

There can not be doubt!

1. This fact is confirmed by the practice itself. Just take and read the numerous letters from so many people that have been cured of so many diseases.

What diseases have been cured?

This is a very labor intensive and therefore - a wrong question. It is easier to make an effort to count: **what diseases HAVE NOT been cured with this method.**

Do not assume that statement is overinflated. And do not be astonished by this fact. That's just the very reality.

2. And the simple and accessible scientific explanation – WHY it is so – you've already received a little above:

- The human organism itself is **the universal fighter against every disease!** And the physical mixture supplied to the organism a) a certain way, b) under a certain regimen, c) in a certain dosage d) with keeping a certain diet, e) with accompanying supplementary conditions.

All this **reinforces the universal fighter against every disease** – the organism - and increases its life-force and helps it to cope practically with every disease!

- The material mixture itself is a universal cure for every disease - because it solves successfully the listed universal questions above that apply without exception
– to the central **UNITY** of - every cell of the body - with the ambient,
– to the central **UNITY** of - the body as a whole - with the ambient,
– to the central **UNITY** of - any organism - with the ambient
– to THE OXYGEN - and the optimization of its delivery in to every cell.

So - simply strengthening the organism – **the universal fighter against every disease** – through one means or another -

is a UNIVERSAL fight against ALL diseases simultaneously!

And exactly such a greatly successful UNIVERSAL tool is the Therapy of Shevchenko. I will discuss further - HOW and WHY In detail – and here I only give this fact, so as not to interrupt or divert from the main topic.

ALL without exception diseases are geared against it (the organism) all of them focus on it - and NO disease can avoid the "fire attention" and opposition of this universal fighter against all of them,

EXCEPT FOR just ONE disease:

- **The disease of CANCER.**

IN THE CASE OF THE DISEASE OF CANCER

the organism turns to the opposite and becomes our traitor

Only this disease (CANCER in its many varieties) does not meet with the fiery resistance of the organism - this universal fighter against ANY disease!

Moreover - in the case of the cancer disease (in all its varieties) the organism shows itself as a traitor against us in the war for health - **and turns AGAINST ITSELF!**

So here this universal fighter against all disease IS NOT OUR ALLY!

And we can not rely on it.

More over - the body's defense system becomes an enemy of the organism in the case of the disease of cancer. It sounds strange but that is the truth.

Nevertheless

the Therapy of Shevchenko – does not mislead us here as well, and here as well it shows its universality - and leads to the cure of cancer in all its manifestations.

WHY and HOW does it happen?

In this research I'm going to answer with only a few sentences. More details on the matter you will find in my next research -

named

The Genetical Biomechanism Of Suicide

So - in a few sentences:

If you type only two (2) "magic" words in YouTube "cancer cure" - then you will "discover" thousands of "methods" out there which promise much and deliver NOTHING!

Why? - Because they all **focus on killing cancer cells by necrosis**!

(cell death by external intervention)

1) **Any method that kills cancer cells by necrosis, can not cure cancer, even theoretically, but only accelerates the death of the organism** – because it activates its defense system = causes the organism to begin to restore those killed cells and to multiply them - and so **the organism kills itself by cancer.**

2) Only the method of Shevchenko does not kill cells by necrosis but activates the signal apoptosis - so the organism's defense system is not activated and it gets cured

This is the common point and it applies to every type of cancer.

For more details - visit the web site

www.cancercureclinic.info

and download for free my research which gives an overview of precisely:

- How the organism begins to commit a real suicide and activates what I have named

"The Genetical Biomechanism Of Suicide"

There you will find also an accurate explanation on:

- WHY it is impossible to cure cancer using these methods even theoretically?

- and WHY the Method of Shevchenko does it and has such a big success!

The **Genetical Biomechanism Of Suicide** is THE KEY that allows us to open the door to the SUCCESSFUL and DEFINITIVE cure of the disease of cancer - in all its varieties. - And without knowing this KEY and without its implementation IT IS IMPOSSIBLE to achieve a cure for cancer, in any of its varieties - not even theoretically! - it's impossible!

Someday the dominating Medicine will also (possibly) come to the same conclusion and will also create **an anti-cancer agent that will kill cancer cells**

- **with apoptosis**

- **and not with necrosis**

as it is now.

Then it will be **their FIRST anticancer agent that will bring a result - cure from cancer!**

I wish them to create not only one, but hundreds such means! But now they have NOT ONE!

So far solely the therapy of Shevchenko achieves this result!

But until then, while all their "anticancer" means **kill cancer cells by necrosis** (as it happens now) in a futile attempt to heal the organism from cancer – the organism, this universal fighter against any disease:

- will "perceive" ALL those "anticancer" means

as a direct threat against itself and will fight

a) against these means, b) not against the disease (as it happens now)!

- and will commit suicide by cancer (as it happens so far)

- and will make ALL their "anticancer" means absolutely senseless and useless (as it happens so far)

How exactly happens this

- suicide of the organism by cancer, and that

- making senseless of all these "anticancer" means of the dominant Medicine with which **the organism itself does not "agree"**, learn in the next chapter:

"The Genetical Biomechanism Of Suicide". Priest John (Vasilevski)

Here I cite examples of the application of the Therapeutic Methodology of Shevchenko

- and cures of cancer and of diseases recognized as incurable

NOTE: For all of these examples - in each case separately – you can get details, if you want. But it is not possible for them all to be brought together here in this text because of their huge volume. Even more impossible to implement is the work to translate them into any language. That is why:

a) Here I cite only the first case, General reference number 216. I cite it - simply because it is the first case of a row from this section of the archive

b) For all the other cases, I leave only the headlines here.

a) First case. General reference number 216.

7 Examples of treatment: of laryngeal cancer, enlarged prostate, asthma, intervertebral hernia, diabetes, gastritis, enterocolitis, arthritis, diseased liver. Comparison between the "method of Shevchenko", fasting treatment and the methods of the doctors

My name is Lyudmila, I'm 57-years-old. I have not been given the diagnosis of "cancer", but for many years, I got food stuck in the area of the larynx. Neither there nor here – I saved myself through vomiting. I soon noticed that even a quarter pill of dipyron was impossible to swallow. Last spring, on my neck under the chin appeared a large "bump", at about the same time your books fell into my hands.

Living example for me was and is a 73-years-old man who cured his prostate adenoma with your mixture, having given up the operation. Now this brave old man can easily run with a walk-behind tractor in the vegetable garden and do his favorite work (he is a parquet floor layer). Following his example, for the second year are successfully treating themselves by your method his wife (she is a doctor) and 36-year-old son.

Why I do not go to the doctors? I have a special relationship with them.

From age 20 to 40 years I suffered from chronic bronchitis with asthmatic component. I was constantly monitored by the district doctor or under hospital treatment. My district doctor "comforted" me with the fact that in a few years, I was ensured an invalid group for asthma. Alas, this was not fulfilled. But at that time I was taking a lot of pills and intravenous injections. I did not part with asthmopent and with some other inhalers for stopping attacks.

I do not know what would all have ended with, if my eldest son had not brought home a book of Paul Bragg's "The Miracle of Fasting". I studied the book and believed that my asthma can be cured. Now I know it's true. At first I carried out short water only fastings of 3-4 days. Then, of 7 days, and later of 12 and 15 days, passing through the first acidotic crisis, which usually occurs on the 7-10th day of fasting. I learned the correct way out of fasting, soft-starting the digestive process.

I could not stop wondering why none of the doctors, seeing my long suffering, had told me of such an effective method.

So, I do not want to now turn to the doctors in the hospital, though, I may have to - for the diagnosis of the throat. So, for 15 years my organism has prompted me itself - when and how long to fast to avoid the asthma. But on the esophagus and spine (intervertebral hernia) fasting had no effect.

In the spring of 2011, I had to go into another long fast. I had to choose what to apply first - fasting, or the mixture of N. Shevchenko. In your book, I read: "Fasting is not desirable", and decided to hold off fasting. And without hesitation, from April 12 started to drink the mixture of 30+30 ml three times a day, strictly according to the method. After the third cycle, and up to now I take a dose of 35+35, also three times a day, but with a slightly weakened diet. I have a very sweet tooth, even though deep down I reproach myself for it.

Improvement in swallowing food I noticed immediately. Besides, I had a hernia of 4-5th cervical vertebra. Treatment by a neurologist and vertebrologist had not given me relief. And now, in the second cycle of treatment, I found that I could lift my left arm without pain high up, which had previously been impossible.

At the same time my 25 year old daughter-in-law Irinka was much suffering from

vertebral pain. She underwent an MRI, the result: a hernia in the lumbar spine. The pain was VERY strong, she could not stand up. She was treated with manual therapy, nothing worked. In your books we did not find examples of treatment of intervertebral hernia, but still Irinka decided to drink the mixture. (Shevchenko NV: on this site is another example of the treatment of a herniated disc, here in this letter.) In June, it will be a year of this treatment. It helped! The pain passed. She adhered strictly to the diet for 8 months. Now she allows herself little quantities of all. We will continue the treatment up to 3 years. We are very grateful to God and to you, and to the people who told us about this treatment.

And we have a trouble. Irinka's mother fell ill, she is 48. In the Khmelnytsky Regional Oncology Center they gave her a Cancer diagnosis. She trusted the doctors very much. She was prescribed and made chemotherapy, then radiation. After the radiation therapy, she got burns of the bladder, and the radiation was discontinued. Now, she has agreed to an operation. But in the mixture she does not believe. We left your books with her in the hospital, but she does not quite want to read them. We can not convince her, very sad. After all, her daughter was treating herself by your method before her eyes, and successfully!

Now, about the course of my treatment. At the end of the first cycle I had a strong cough with phlegm discharge, with nose mucus flowing like a stream. It lasted 3 days. And that's it. I did not have any need for fasting or inhalers. Asthma (asthma attacks) was no more.

With the ingestion of food there are no problems now. The lump on my neck has diminished a bit, but is still visible to the eye. I did not go to the doctors, did not pass ultrasound. However I have to examine my neck. I'll be sure to do it.

Nikolai Victorovich, your methodology is 100 times more effective, easier and safer than that which I was doing before (fasting). (Shevchenko NV: On this site there is another similar letter (read it here) from a very sick person, who was treating themselves first by the famous system of healing of the Japanese engineer Katsudzo Nishi, and after that – by my method. I advise you to read what this person says about the method of K. Nishi and "the method of Shevchenko.") Thank our God and you for the fact that it is in the world and helps people.

Now about Uncle Misha - this is that 73 years old man, whom I wrote of above. Before replying to you, I met him and asked questions about what I will write now.

He really had a big BPH, I failed to remember how big. Prior to the treatment with your mixture he went to ultrasound 2 times. He keeps the results.

He was offered an operation in an irreverent way that offended him. He declined from the operation. For some time he took the extract of celandine. He was very sick. Was a bed patient. On top of all, was discovered also obstruction of the urinary ducts, was with a catheter for 4 days.

He took gentos, cardura, and canephron. Then he remembered about your book that two years before he had given to a neighbor who had suffered from diabetes.

By the way, this neighbor has been taking your mixture for 5 years now. She got rid of many health problems, and does not take any shots from diabetes.

Misha bought your new book. He took the dose of 35+35 for 2 years. From the third year he moved to the two times a day taking, also 35+35 ml. He observed the diet.

WHAT HE ACHIEVED: After the 1st cycle the urinary urgency was 3 times a night, and

after the third cycle - already only 1 time. Pain passed. After the treatment he did not pass ultrasound. Now he feels good, lives a full life. Last year, on the Dormition of the Mother of God, walked with the pilgrims on foot procession to the Pochaev Lavra. (Shevchenko NV: from Khmelnytsky to Pochaev – is 100 kilometers in a straight line). Misha sustained the procession well, even he was surprised. (He believes in God, sings in the church choir).

His wife, Nina Kondratyevna also takes the mixture for the third year now, the dose of 35+35 ml three times a day, without breaking the methodology.

SHE IS A MEDIC. She tried on herself all the existing medications. For many years she suffered from chronic gastritis and enterocolitis, could not eat anything. She also had severe pain in the joints (arthritis). She made herself injections into the joints, and yet the pain in her legs severely tortured her.

The improvement of her condition came very soon. Now she can eat everything.

Strength came, she can freely work on her farm with her husband. She is 65 years old.

Her words: "We have tried this treatment on ourselves, and we can safely offer it to our children and grandchildren". She is clever.

Their son, Alexander, he's 36 years old, has been drinking the mixture of 35+35 ml three times daily for 1 year. Strength came, he began to work, while previously had been also very ill.

It was not easy for Uncle Misha to convince his sister Paulina, who was diagnosed with cancer, to take your mixture. She first chose the official medicine, and passed all the hell of the treatment at the Oncology Center. She underwent two operations to remove her right breast and the axillary lymph node. After the chemotherapy and radiation therapy her diabetes worsened, her liver increased greatly and got sick. And she had gone to the doctors for the first time with a small cyst in the right breast.

For treatment in the oncology went all the money she could get. When there remained only to sell the house, she finally listened to her brother. She realized that medicine would only kill her. She confessed her sins to the Lord, and began treatment with the mixture 3 times a day, dose of 40+40 ml, in compliance with all the instructions of the methodology.

After 1 year of treatment by your method her liver came to normal, sugar - almost the norm, her condition improved.

June 4, 2012 Di-enko L.I., Khmelnytsky, Ukraine.

After everything I read in this case it comes to my mind to ask:

- Strange, why did this woman not go on to sell her very house as well? What happened, that her mind came to her "thinker", and she stopped so on time - before that fateful act?

(((-:

*Well, I mean – since you started with such vigor, dear woman, to sell and **waste everything** on drugs which **do not help in any way** but even damage your health - okay, then go ahead! - what do you need this house for? Sell it as well - and remain on the street ... Just answer me: **WHY?** ...*

b) Here follow the remaining cases (of this section of the archive) - only the titles:

A Doctor - therapist on the "method of Shevchenko." Treatment of gallbladder cancer with metastases to the liver and lymph nodes, peritoneal carcinomatosis (cancer seeding), ascites; of uterine sarcoma with metastases to the ovaries, pelvis and rectum
Doctor of Pharmacy on the "method of Shevchenko". Treatment of bladder cancer, colon cancer with liver metastases
Treatment of 18-year complete deafness, lymphoma, cancer of the esophagus and the stomach, constipation, hypertension
Treatment of benign prostatic hyperplasia, hypertension
Treatment of allergy to vodka, drugs, food; of tuberculosis of the joint; of inoperable cancer of the uterus when the patient was no longer able to herself drink "the mixture of Shevchenko". How the green varieties of apple help
Treatment of allergy to foods and medications, alcoholism, stomach ulcer
Treatment of allergy to alcohol, gout, severe pain, hypertension, osteochondrosis, constipation, pancreatitis
Treatment of allergy, eczema, pancreatitis
Treatment of autoimmune thyroiditis, hypothyroidism, female infertility, mastopathy, node and cysts in the breast
Treatment of basal cell carcinoma (twice) at the age above 90, hypertension, varicose veins
Treatment of lateral atrophic syndrome (BAS)
Treatment of bronchial asthma of mixed type, dependence on hormones, tuberculous cavity of the lung
Treatment of rapidly growing papilloma without an accurate diagnosis
Treatment of congenital liver cirrhosis in an infant
Treatment of gastritis, colitis, heartburn, high blood pressure, cyst in the spleen, kidney stones, excess weight
Treatment of hepatitis B and C, lung cancer with metastases to the spine. About the fact that some biochemists - Nobel laureates have shown that AIDS as a set of symptoms exists, but the "HIV virus" does not
Treatment of hypertension, stroke after-effects
Treatment of hypertension, diabetes, helminthiasis (from parasites), trophic ulcers, kidney insufficiency, furunculosis, varicose veins
Treatment of hypertension, angina pectoris, cardiac arrhythmia; kidney sand; hemorrhoids, diabetes
Treatment of hypertension, gastric ulcer and duodenal ulcer, "wart", vascular sclerosis after cholecystectomy
Treatment of glomerulonephritis and chronic renal failure
Treatment of dumping syndrome, hypotension, severe chronic constipation and headaches, intervertebral hernia
Treatment of cerebral palsy (CP), and uterine fibroid sized 10-12 weeks, pustules on the face, sinusitis in a patient with solitary kidney
Treatment of female infertility and during pregnancy
Treatment of malignant histiocytoma of the soft tissue with an ulcer
Treatment of infectious polyarthritis
Treatment of ischemic heart disease (angina), arrhythmia
Treatment of cysts in the thyroid gland

Treatment of drug-resistant pulmonary tuberculosis, pleurisy, cavities in the lung, gastritis. On the diet without salt.

Treatment of Hodgkin's disease in the mediastinum, lymphosarcoma, brain tumor (astrocytoma)

Treatment of lymphoma (lymphosarcoma)

Treatment of lymphoma of the brain, the symptoms of stroke and severe intoxication, of a kidney stone

Treatment of lymphosarcoma with prolonged deterioration. The power of prayer

Treatment of liposarcoma, cramps, numbness of the leg, cystitis, bronchitis

Treatment of melanoma with metastases to the breast, uterus, kidney, liver, effects of stroke; of severe dyspnea at the age of 95 years. Comparison between the system for health improvement of Katsudzo Nishi and "the method of Shevchenko"

Treatment of melanoma, drug addiction, trophic ulcers, alcoholism, epilepsy

Treatment of meningioma (brain tumor), thrombophlebitis, chronic purulent sinusitis, heart arrhythmia

Treatment of melanoma metastases in the lung and mediastinal lymph nodes

Treatment of basal cell carcinoma (skin cancer) metastases in the lungs

Treatment of malignant paraganglioma metastases in the lungs. What doubting the diagnosis of doctors leads to

Treatment of metastatic malignant paraganglioma after partial surgery and a severe stroke in the course of 8 years. The effect of changing the dose of the mixture on the treatment

Treatment of lymphosarcoma metastases in the lymph nodes

Treatment of melanoma metastases in the lymph nodes and of its recurrence after discontinuation of the treatment by the "method of Shevchenko"

Treatment of melanoma metastases in the liver

Treatment of metastases of cancer in the bed of removed kidney, in the liver, pancreas, and spleen,

Treatment of colorectal cancer metastases in the bones with removed gall bladder, after strokes; treatment of hypertension, erosions in the stomach, colitis

Treatment of lung cancer metastases to the brain, bones of the head, lung; treatment of arthritis, high blood pressure

Treatment of metastatic lung cancer in the bones, pancreatitis, heart disease, dystrophy

Treatment of metastatic breast cancer in the bones for 10 years, cancer, uterine cancer with bleeding, lymphosarcoma after attempted surgery

Treatment of metastatic breast cancer and uterine cancer in the bones with very strong pain

Treatment of metastatic esophageal cancer, high blood pressure with an 8% working kidney, hemorrhoids, pigment spots all over the body, warts on hands

Treatment of metastatic renal cancer in the bones with a solitary kidney, and the hemoglobin of 37 (thirty seven) g/l

Treatment of metastatic renal cell carcinoma in the lung having a solitary kidney

Treatment of metastatic colon cancer in the liver and abdominal cavity with complete bowel obstruction

Treatment of metastatic colon cancer to the liver and kidneys

Treatment of multiple myeloma (myeloma, plasmacytoma), osteoporosis

Treatment of multiple myeloma after a stroke and with very bad blood tests
Treatment of drug addiction, eczema of the whole body, dysbiosis, female infertility
Treatment of hereditary hypertension after strokes, atherosclerosis, angina, arterial thrombosis, systemic lupus erythematosus
Treatment of inoperable brain cancer that has spread in the brain
Treatment of unresectable gastric cancer with metastases to the pancreas and intestines, after trying operation; of huge gastric ulcer; of lymphoma with ascites and pleurisy; treatment of rectal cancer
Treatment of inoperable lung cancer stage 4, hepatitis C, epilepsy in child
Treatment of inoperable lung cancer stage 4 with collapse of the tumor. What happens if you drop the treatment before healing
Treatment of inoperable lung cancer after trying operation
Treatment of inoperable lung cancer, pleurisy
Treatment of inoperable lung cancer, pleurisy, tuberculosis
Treatment of inoperable cancer of the bladder. 7 years later...
Treatment of inoperable central lung cancer with metastases in the spine, pleurisy, hemoptysis
Treatment of unresectable tumor (cancer) of the brain
Treatment of inoperable cancer of the pancreatic head after anastomosis around the tumor
Treatment of non-Hodgkin's lymphoma (lymphosarcoma), tuberculous cavity in the lungs
Treatment of non-Hodgkin's lymphoma stage 4-B, hepatitis C
Treatment of non-Hodgkin's lymphoma stage 4, cirrhosis, ascites, varices, with heart disease and low blood pressure
Treatment of non-Hodgkin's lymphoma, ankylosing spondylitis, alopecia (hair loss)
Treatment of huge fibroid or uterine cancer. Once again that by "the method of Shevchenko" everybody can treat themselves
Treatment of large uterine cancer metastases in cervical lymph nodes for 7 years with the re-initiation of the treatment after relapse, arrhythmia, tachycardia, hypertension, pancreatitis
Treatment of tumors of the kidney and skin, and in both cases there was a temporary enlargement of the tumors; treatment of 30-year hay fever, tinnitus, hypertension; About safflower oil and grape seed oil, the benefits of a teaspoon of rice oil
Treatment of Wilms tumor (kidney cancer) in a young child, thyroiditis, stomach pain, chronic sinusitis
Treatment of brain tumor (metastasis of breast cancer)
Treatment of brain tumor, epilepsy
Treatment of breast cancer, uterine cancer, uterine cyst, bleeding, kidney tumor, bone cancer, asthma, kidney stones, large sebaceous cysts and moles, hemorrhoids. What happens when dropping the treatment before complete healing
Treatment of kidney tumor, uterine fibroid, arthritis, ulcer of the duodenum, allergy, asthma, osteochondrosis, severe headaches
Treatment of colon cancer, Crohn's disease (intestinal ulcers), hemorrhoids, hypertension
Treatment of colon tumor, anemia, heart disease, osteoarthritis, headaches and chronic allergies to many foods, smells and drugs
Treatment of tumor of the tail of the pancreas, pancreatitis

Treatment of remnants of solitary kidney among a huge tumor in it
Treatment of osteoporosis, severe bone pain, tachycardia, gastric polyps
Treatment of osteoarthritis, severe sclerosis, memory loss
Treatment of pancreatic necrosis (acute pancreatitis), constipation, asthma, dependence on hormones, thyroid, stomach ulcers, arthritis
Treatment of pancreatitis (severe), gastritis, cholecystitis, bronchitis, duodenal ulcer
Treatment of warts on the body, parasites, severe general weakness, colon cancer stage 4. What computer diagnostics of the organs shows during the treatment
Treatment of primary liver cancer with metastases in both lobes of the liver, liver cirrhosis, ascites
Treatment of femoral neck fracture and breast cancer
Treatment of ring-cell gastric cancer with a large ulcer
Treatment of squamous cell lung cancer after attempting operation, cancer of the cecum
Treatment of subacute diffuse glomerulonephritis in a child
Treatment of polycystic liver and gall bladder, sinusitis, bronchitis, degenerative disc disease, angina, enlarged prostate
Treatment of kidney and gall bladder stones
Treatment of kidney stones
Treatment of progressive congenital heart disease in a child, cancer of the esophagus and stomach, hypertension, sinusitis, hemorrhoids, degenerative disc disease, mastitis
Treatment of whole body psoriasis, chronic cholecystitis
Treatment of fifty-years' chronic constipation, pain in the head and the heart, chronic cystitis, by drinking the mixture by the "method of Shevchenko" once a day
Treatment of rhabdomyosarcoma in a child
Treatment of cancer of the bronchus (lung) with metastases, bladder cancer, prostate cancer with metastases in the lungs, liver, spine
Treatment of 4th stage cancer of the upper jaw with metastases to cervical lymph nodes
Treatment of extrahepatic bile duct cancer after attempting operation
Treatment of pancreatic head cancer stage 4 for 10 years
Treatment of brain cancer - glioblastoma recurrence, epilepsy
Treatment of brain cancer, the effects of stroke
Treatment of throat cancer
Treatment of throat cancer stage 4; lung cancer; hypertension, angina pectoris, degenerative disc disease, cholecystitis, erosive and ulcerative colitis, gastritis, with chronic renal and heart failure; very strong cramps of the limbs, dependence on the reception of hormones
Treatment of throat cancer of 4th degree with bone metastases, cervical cancer, lung cancer, severe headaches
Treatment of throat cancer at 88 years of age. At first for a long time there were deteriorations
Treatment of cancer of the tongue and throat with ulcers and metastases in the liver and lungs; hypertension; gallstone
Treatment of throat cancer, cancer of the sigmoid colon
Treatment of cancer of the larynx
Treatment of laryngeal cancer without surgery
Treatment of cancer of the larynx, throat and base of the tongue with metastases in the lymph nodes

Treatment of cancer of the larynx, throat, metastasis in a neck lymph node with an ulcer on it

Treatment of cancer of solitary kidney, anemia (low hemoglobin)

Treatment of gastric cancer stage 4

Treatment of gastric cancer with removed gallbladder

Treatment of gastric cancer with multiple metastases

Treatment of cancer of the stomach, vomiting

Treatment of gastric cancer, severe pain, vomiting, with hemoglobin 35 (thirty five) g/l

Treatment of cancer and benign prostatic hyperplasia, hypertension, cardiac arrhythmias

Treatment of cancer and papillomas of the bladder, hemorrhoids, gallstones, varicose veins

Treatment of cancer and ulcers of the stomach with removed gallbladder and heart disease

Treatment of cancer and ulcers of an operated stomach

Treatment of lung cancer after stroke with paralysis of the entire body and almost complete lack of consciousness, hypotension

Treatment of lung cancer with severe shortness of breath, bowel cancer

Treatment of lung cancer, shortness of breath, high blood pressure, cardiac arrhythmia with a solitary kidney at age 91

Treatment of lung cancer at age 78. 11 years later ...

Treatment for lung cancer with bone metastases, pleurisy, uterine cancer, chronic tonsillitis (angina)

Treating lung cancer, glaucoma, cataracts, Parkinson's disease

Treatment of lung cancer, breast cancer with metastases in the lymph nodes, rectal cancer with liver metastases

Treatment of lung cancer, bladder cancer

Treatment of lung cancer, tuberculosis

Treatment of cancer of the uterus

Treatment of cancer of the uterus third stage with invasion into the intestine, bleeding, chronic sinusitis and pneumonia, stones in the kidneys, urinary and gall bladders, cataracts, eczema, tuberculosis, alcoholism. Of those who quit this treatment. Why I never give anybody addresses and phone numbers, and do not publish the names and addresses of patients

Treatment of breast cancer with metastases in the lung, liver, ribs and other breast; pleurisy, cancerous ulcers; metastasis of colon cancer in the lungs; liver cancer, Hodgkin's disease or lymphosarcoma. What happens to those who drop this treatment before healing

Treatment of breast cancer with an ulcer, benign prostatic hyperplasia

Treatment of breast cancer twice

Treatment of breast cancer, nodes in the thyroid, cardiac ischemia, benign prostatic hyperplasia, excessive body weight (150 kg minus 65 kg)

Treatment of bladder cancer after three heart attacks with a strong constant bleeding and low hemoglobin, inguinal and umbilical hernia

Treatment of bladder cancer, bleeding for 7 years. Doctors do not understand why there are metastases nowhere

Treatment of bladder cancer, bleeding, nausea, heartburn, diarrhea

Treatment of bladder cancer with invasion into adjacent organs, aortic aneurysm, psoriasis, chronic rhinitis and bronchitis

Treatment of liver cancer

Treatment of esophageal cancer stage 4 with metastases

Treatment of esophageal cancer stage 4 with liver metastases with complete obstruction of the esophagus

Treatment of esophageal cancer, long-term heartburn with removed gallbladder, hypertension

Treatment of pancreatic cancer with metastases in the liver, brain cancer

Treatment of pancreatic cancer with metastases to the liver, yellowing of the body

Treatment of pancreatic cancer, pancreatitis, liver disease and heart disease, osteoarthritis

Treatment of renal cell carcinoma (hypernephroma), gallstones, long-term heartburn, hypertension

Treatment of kidney cancer and cysts in the kidneys

Treatment of kidney cancer in hypertension (300/160 blood pressure), cholecystitis and pancreatitis

Treatment of kidney cancer with metastasis to the spleen and liver

Treatment for prostate cancer (metastases to the bones), brain tumor, intestinal polyps, asthma, cardiovascular system, gastrointestinal tract

Treatment of prostate cancer stage 4 with lung and bone metastases

Treatment of prostate cancer stage 4 with invasion into the bladder and bone metastases

Treatment of prostate cancer with PSA 100 and catheterized bladder

Treatment of prostate cancer with PSA 158 and of breast cancer metastases in the lung and brain

Treatment of prostate cancer with PSA 243, after coronary artery bypass grafting

Treatment of prostate cancer with PSA 340 at the age of 80 years

Treatment of prostate cancer with invasion into the rectum, bleeding, angina pectoris, cardiac arrhythmia, esophageal diverticulum

Treatment of prostate cancer, bladder cancer, kidney stones, hypertension, seborrhea, chronic bronchitis, cysts of the liver, kidney, spleen, "bumps" on the body. About drinking the mixture without interruption. Why is PSA sometimes temporarily increasing

Treatment of prostate cancer. What should I do if during this medication PSA has suddenly increased

Treatment of rectal cancer

Treatment of cancer of the rectum, bleeding, pancreatic cancer

Treatment of cancer of the cecum 4th stage with metastases in the liver, bleeding

Treatment of cancer of the uterus and cervix

Treatment of colon cancer, bleeding, hemorrhoids, varicose veins, kidney stones, angina, heart valve calcification, duodenal ulcer, gout, benign prostatic hyperplasia, atherosclerosis of the brain

Treatment of cancer of the ear with metastases in the lymph nodes and lung cancer stage 4

Treatment of cervical cancer stage 3, vomiting, bleeding, suppuration, large weight loss and severe alcoholism in patients who do not speak Russian

Treatment of cervical and bowel cancer, constipation, bleeding, hypertension, angina pectoris, excess body weight (120 kg minus 44 kg)

Treatment of cervical cancer with metastases to the uterus, vagina, bladder; bleeding; stomach ulcers; polyosteoarthritis; glomerulonephritis in a child

Treatment of cervical cancer with spread to the ovary, colon cancer with metastases in the lymph nodes

Treatment of thyroid cancer stage 4, stomach ulcers, cancer of stomach, liver and pancreas, varices, bleeding, kidney stones, hypertension, tuberculosis

Treatment of thyroid cancer with metastases in the lymph nodes

Treatment of tongue cancer. Why you must not take clonidine for "pressure"

Treatment of ovarian cancer with metastases in the abdomen and liver, venous ulcers

Treatment for reactive polyarthritis, coxarthrosis, osteoporosis and bone necrosis

Treatment of rheumatoid arthritis, osteoporosis, osteoarthritis, hypertension

Treatment of rheumatoid arthritis

Treatment of rheumatoid arthritis in severe form, of kidney and gall bladder stones, hypertension, dependence on hormones

Treatment of rheumatoid arthritis, asthma, cystitis, sinusitis, hemorrhoids, swelling, loss of scalp hair

Treatment of recurrent Hodgkin's disease, kidney stones

Treatment of recurrent Hodgkin's disease. There was a temporary worsening

Treatment of cancer recurrence in a solitary kidney, diabetes, hypertension

Treatment of bladder cancer recurrence

Treatment of recurrent cervical cancer with metastases in the abdomen, cardiac dyspnea, fungus

Treatment of erysipelas, two times

Treatment of ovarian sarcoma 4th stage after attempting operation, the effects of stroke

Treatment of Type 2 diabetes, polyposis of the internal organs, hypertension, arthritis, glaucoma

Treatment of diabetes, hypertension, effects of stroke

Treatment of diabetes, hypertension, liver cirrhosis, venous ulcers, ischemic heart disease and the effects of stroke

Treatment of diabetes by administration of insulin, depending

Treatment of diabetes, esophageal cancer, hypertension, sinusitis, hepatitis, kidney stones

Treatment of cardiovascular disease, edema, allergies, coral stone in the kidney

Treatment of systemic lupus erythematosus (SLE), kidney stones, pathological fractures, trophic ulcers, dependence on the reception of hormones

Treatment of systemic lupus erythematosus (SLE), osteoporosis, polyarthritis, dependence on prednisolone

Treatment of systemic sclerosis, venous ulcers, osteoporosis. About the fact that also in deeply religious people the diseases may soon return if they cease the treatment

Treatment of angina at rest for 8 years

Treatment of angina pectoris, atherosclerosis, paroxysmal tachycardia, hypertension, osteochondrosis and osteoarthritis

Treatment of tuberculosis, pleurisy, hypertension, joints

Treatment of nodes in postoperative thyroid gland. What happens to the level of thyroid hormones with this treatment

Treatment of chronic lymphocytic leukemia for 10 years (with a break of 1 year)
Treatment of chronic lymphocytic leukemia, dependence on the reception of hormones
Treatment of chronic tonsillitis (angina). About drinking the mixture in the breaks in extreme cases
Treatment of central lung cancer with metastases in the pleura after attempting operation, for 10 years
Treatment of liver cirrhosis, ascites
Treatment of liver cirrhosis, ascites, hemorrhoids
Treatment of liver cirrhosis, severe pain
Treatment of eczema of the whole body of mixed type (dry and wet at the same time)
Treatment of eczema, influenza, craving for alcohol. On the criticisms of the method and their price
Treatment of endometriosis, gastritis, cholecystitis, enterocolitis, dysbiosis, severe widespread pain, bronchitis, sore throat, joints, dysmenorrhea, ugly scars
Treatment of endometriosis distributed to distant organs and tissues, cancer of the uterus, bleeding from various organs, strong and constant pain everywhere
Treatment of enterocolitis, pancreatitis, constipation, hypertension, atrial fibrillation of the heart
Treatment of epilepsy. Why in this treatment there sometimes is severe bone pain, examples
